Classic to Contemporary – Conair Brushes for Men

Conair knows that every man needs his own brush. That's why Conair offers a brush style for every hair style. And all these brushes work to make you look as good as they do!

Stamford, CT March 26, 1999 – Whether you choose classic or contemporary, Conair can provide you with an infinite variety of styling options. Designed to smooth, shape, curl or lift all lengths and textures of hair – whether at the gym, the office or the theater – there's a brush for every man.

If you're looking for an all-purpose styler after a workout and a shower, Conair's Eurotech Cushion Base Brush features ball-tipped bristles that gently detangle wet or dry hair. This brush grips and manipulates hair, great for styling and finishing. The flexible cushion base allows the bristles to flex, so it works especially well on long or fine thin hair by eliminating stress while brushing.

The Eurotech Rubber Cushion Brush perfectly suits wavy or thick hair, with stiff bristles for smoothing hair straight and stretching out excess curl. Both brushes feature a silver finish, striking against sleek black, and substantial handles that are comfortable to hold.

The Performers™ brush line sports a natural wood finish, nonslip handles and 100% boar bristles which evenly distribute hair's natural oils for a healthy shine. If you've got thin hair, these top quality brushes with stiffer tightly tufted bristles are great because they grab hair better. They're also the gentlest brushes around!

The Performers™ All Purpose Styling Brush, an all-time classic, slips into a gym bag or brief case and works well for touch-ups or brushing and restyling. If your hair is short to medium, straight to wavy, this is your brush. For larger heads and longer hair, try the Cushion Base Brush – its flexible cushion adapts to your head shape.

Last but not least, Conair offers a boar bristle Performers™ Full Round Brush for blow-dry styling. This brush can remove curl from shorter coarse hair or create a bend in straight hair while producing volume and fullness. And of course it has all the premium features of the Performers™ line.

Conair brushes for men – no matter what your lifestyle or where you're going, we've got the brush for you.

Currently available at chain drugstores, mass retailers and specialty stores.
